Reach out to the world...

CENTRE AUDIOVISUEL DE ROYAN

POUR L'ETUDE DES LANGUES

## A LITTLE HISTORY...

The Centre Audiovisuel de Royan pour l'Etude des Langues was jointly created in 1966 by the city of Royan and The University of Poitiers.

It offers all year round intensive courses in German, English, Spanish, and French as a Foreign Language, but also distance learning to a large public of French and foreign, young and adult students.

Since it was created in 1966, CAREL has welcomed 200 000 students and remains one of the first centers to have developed the teaching of foreign languages.

## NOWADAYS

Nowadays, CAREL is more than ever known for its "savoir-faire" and multimedia resources placing the student at the heart of a training based on intensive learning and strengthening of communication skills.

For many years, CAREL has successfully invested in the development of distance learning via our platform [www.e-carel.org](http://www.e-carel.org).

## CAREL IS CHANGING!

In order to provide a more welcoming and user friendly environment, we have started a renovation programme of our school.

## EVENT 2014

An open day will be held in 2014 to give the opportunity to the general public to discover our renovated building and the courses that we offer.
