"The ELS Center in Garden City is a nice place not only for studying English but also for learning different cultures. I made a lot of friends who came from different countries such as Turkey, Poland, and so on. Studying at ELS, experiencing multiple cultures can help you understand America better. After I graduate I plan to go to Adelphi University to study Human Resources. My major requires high communication skills with different people who may come from different countries. **ELS is the perfect stepping-stone to education in the USA.**"

Li, China
ELS Student
Future Adelphi University Student

STUDENTS AND PARENTS ALL AGREE: ELS WORKS.

"When I was 17, I decided to do my overseas study through ELS. I couldn't speak English well at the time.

The ELS class on campus had students from about 20 countries, speaking about 15 different languages. The ELS teachers were very experienced in teaching these kinds of students. **By the end of the day, I'd be looking forward to going back the next day.** After nine months, I received my certificate from ELS.

I think I matured a lot through my experience at ELS and university. At university, when I see my former ELS classmates working hard and trying to achieve something big and pursue their dreams, it makes me want to work hard too. I feel grateful for these important friendships; they give me a lot of motivation.

I'm majoring in biomedical engineering right now. I'm planning to take a year off to do an internship to gain experience working in a company and then apply for graduate school. I want to learn more about the medical field and then go and help people in my home country."

Ali, Yemen
ELS Graduate
Current California Lutheran University Student

"In 1976 I myself was a student at ELS in Oakland, California, and since then, the English language has become an important part of my daily life, helping me a lot in my duties as a doctor.

That is why when my kids Carlos and Ana Grecia were the right age to leave Mexico in order to learn English, **I did not hesitate to send them to ELS because I knew the quality and the prestige of your school.**

My wife and I are happy to have left in your hands the English learning of our youngsters.

You did a very good job because they both speak and write the language very well, and it is helping them in their professional careers. Please receive our appreciation!"

Dr. Arriola, Mexico
Former ELS Student
Parent of Current ELS Students

"I've sent my kids through ELS English programs for several years. **It's not only a language experience but also a lifetime experience.** They get to learn from cultures of the world and make friends for a lifetime. All admission paths are taken care of, and that is a great help for a busy parent."

Catherine, Martinique
Parent of ELS Students

"It was not hard for me to apply to community college, because ELS helped me prepare all the documents. It did not take me long to get used to it because I knew what I should do to succeed from my ELS experience. **In ELS, I met the best teacher I ever had.** I was having a difficult time writing my personal statements for my application to UC Berkeley, but I asked her for help and she advised me whenever I had problems. I think I would not have gotten into UC Berkeley without her help. Another advantage of the ELS 2+2 community college system is that you save money if you go to community college and then transfer."

Gim, Korea
ELS Graduate and Former Community College Student
Current UC Berkeley Student

"I definitely made a right decision when attending ELS school. At school, **I learned not only English but also American Culture.** Both of them are very important to anyone who wants to study in America. ELS teachers who are friendly to students have helped me a lot even though I graduated. Personally, I love the English Master program so much, although at first I felt worried about my English just a little bit learning in the Master class. Shortly after that, I enjoyed studying with the program because it pushed me both to speak and write a lot. Not only that, I completed a research paper with 10 pages, which helped me get used to MBA classes in the university. I am now studying in Louisiana Tech and do well in my classes."

Hoai, Vietnam
ELS Graduate
Current Louisiana Tech Student

"There are no words to express all my gratitude to all the teachers and staff at ELS. When I arrived to the USA, I could barely connect two sentences in English. Now, I am confident about my skills and I'm able to express myself in ways that I'm truly proud of. All the teachers and staff were ALWAYS supporting me in my learning process. **Day by day, I received all that I needed to succeed.** Now my doctoral studies are awaiting me at the University of California at Santa Cruz, and I can't wait to put into practice all that I've learned."

Juan, Colombia
ELS Graduate
Current University of California at Santa Cruz Student

"Before I came to ELS, I had a problem, which was a lack of self-confidence. All teachers and ELS staff have always assisted me to express myself and to improve my English since my first day. They are also smiling at all the students all the time. **Thanks to their help and my effort, day by day I overcame all my problems.** In addition, every month ELS Berkeley prepares a schedule of activities. I participated in most of them, and they were very fun and helpful to make conversation with people. **If I had a chance to choose a language school, I would choose ELS again.**"

Celal, Turkey
ELS Student

"I was interested in pharmacoepidemiology. So I created a plan to meet the English requirement for admission by laying out how I would attend ELS on campus and prepare for the GRE. They said yes to admitting me conditionally. **ELS helped me a lot. ELS was not just for English, it was for everything.** It was the best time of my life."

Ziyad, Saudi Arabia
ELS Graduate
Current University of Cincinnati Student

ACCESSIBLE AND SUPPORTIVE TEACHERS AND STAFF WHOSE FOCUS IS ON YOU

Being away from your home country, especially if it is for the first time, brings with it excitement, adventure, discovery and self-awareness. It can also bring the challenges that come from being in an unfamiliar place, apart from family and friends. The faculty and staff at every ELS Center are warm, friendly, welcoming people who understand that you are a person as well as an English language student. Their goal is to ensure your success, offering care, patience and diligence.

"I work intensively with students on their critical thinking, questioning, reading, writing and presentation skills, preparing them for research writing at the university level. It has been **my joy and privilege to travel with them on their journey** and to reconnect with them once they are in college. It is gratifying that they fondly recall being in my class because it helped prepare them to be successful in their undergraduate or graduate writing."

Great Things To See And Do

Explore Music City USA: After New York City, Nashville is the second-biggest center of music production in the United States. There is far more to the music scene in Nashville than country music. If you are a music lover, this is your town!

Grand Ole Opry: The top attraction in Music City, the Opry showcases country music legends and newcomers as well. Enjoy a behind-the-scenes look at this famous show on an Opry tour, offered every Friday and Saturday night, giving visitors a backstage glimpse into new and old country music history.

Musicians Hall of Fame: This is the one and only museum in the world that honors the talented musicians who played on the greatest recordings of all time.

Centennial Park: Nashville's premier park, the 53-hectare area features a life-size replica of the Parthenon, a 1.6-kilometer walking trail, Lake Watauga, the Centennial Art Center, historical monuments, an arts activity center, a beautiful sunken garden, a band shell, an events shelter, sand volleyball courts, dog parks and an exercise trail.

Nashville is home to the world's only exact full-scale replica of the Parthenon in Athens, Greece. It is the tallest indoor sculpture in the Western world.

ELS/New Haven is located at the University of New Haven in West Haven, Connecticut. Known as a national educational and cultural hub, nearby New Haven is home to six colleges and universities, including Yale University. New Haven is only a 90-minute train ride from the excitement of New York City and two to three hours from historic Boston.

Great Things To See And Do

East Rock Park: Visitors to the largest park in New Haven enjoy hiking trails, a rose garden, picnic areas, nature trails, tennis courts and a bird sanctuary. The park summit is THE spot for a panoramic view of nearby Long Island Sound.

Yale University: Regarded as one of the world's greatest universities, Yale offers a wide variety of stimulating activities for visitors, from tours of historic buildings to avant-garde art shows and live theater.

Pizza Feud: Pepe's and Sally's are two long-established pizzerias located on the same New Haven block and have been feuding for decades. Both restaurants make thin-crust "New Haven-style" pies baked in coal-fired brick ovens, and both have lines out the door day and night. Try both and decide which is best.

The first hamburger was made and served at Louis' Lunch Sandwich Shop in New Haven in 1895. It is in operation today, so stop by for "the greatest burger in the world."

ELS/San Francisco – Downtown is located on the city campus of Golden Gate University (GGU). The city is renowned for its cool summers, fog, steep rolling hills, eclectic mix of architecture, and landmarks, including the Golden Gate Bridge, cable cars, the former prison on Alcatraz Island and its Chinatown district. It is also a primary banking and finance center.

Great Things To See And Do

Cable Cars: To get the full experience of San Francisco's cable car charm, you'll have to hop on board. San Fran's cable car system is the last of its kind in the United States and is the only moving National Historic Monument in the world. Built in 1873, the cable cars transport 9.7 million people around the city annually.

Golden Gate Bridge: The Golden Gate Bridge's vaulting, orange arches amidst the rocky seascape of San Francisco Bay have made it the West Coast's most enduring symbol and the city's most popular tourist attraction.

Fisherman's Wharf: This waterfront neighborhood houses several popular San Francisco sites, including the PIER 39 shopping center (a great spot to view sunbathing seals) and the Ripley's Believe It or Not! Museum. Catch a ferry to nearby Alcatraz from here. The Golden Gate Bridge is also nearby.

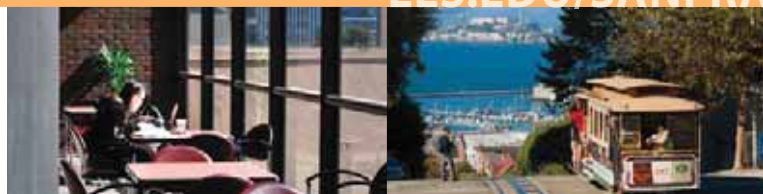

The Chinese fortune cookie originated in San Francisco. Makoto Hagiwara, a Japanese immigrant and designer of Golden Gate Park's famous Japanese tea garden, created the first fortune cookie in 1914.

ELS/Santa Barbara is located in downtown Santa Barbara, a spectacularly beautiful area known as the “American Riviera” because its geography and climate are similar to the French and Italian Rivas. It is famous for its sunny weather, Spanish-style architecture and lively college town spirit.

Great Things To See And Do

State Street: Santa Barbara’s most famous avenue, State Street cuts through downtown and leads onto Stearns Wharf. Its shops, art galleries, theaters and museums make this a favorite of locals and visitors alike. A trolley runs up and down State Street, but walking is the best way to enjoy all there is offered here.

Beach Life: East Beach is the best stretch for serious sunbathing, with unobstructed sunshine all day long. There are more than a dozen beach volleyball courts here for those less inclined to catch the rays. The coastal area offers some of the best surfing, boogie boarding, kayaking and paragliding as well as opportunities to watch for whales in the Pacific Ocean.

Day Trips and Weekend Getaways: To the south, Los Angeles is just an hour-and-a-half drive away. Students also enjoy taking trips to Las Vegas and San Francisco. In the local area, hike to the hot springs of Gaviota Peak or rock climb “the Y” at San Ysidro Canyon.

Santa Barbara boasts one of the most pleasant year-round climates in the USA. Temperatures range from the mid-teens to mid-20s Celsius throughout the year.

Great Things To See And Do

Santa Cruz Beach Boardwalk: A popular destination for more than 100 years. The still-operational Giant Dipper wooden roller coaster was built in 1924 and helped make the boardwalk famous! There are games and many places to get a bite to eat. Be sure to take the Sky Glider ride and take in the beautiful views of Monterey Bay.

Santa Cruz Wharf: Adjacent to the boardwalk and main beach, the wharf offers many restaurants and shops. Best of all, the sea lions play at the end of the pier. Rent a boat or take a boat ride right from the wharf.

Natural Bridges State Park: Excellent for viewing shore birds, migrating whales, and seals and otters playing offshore. Tide pools offer a glimpse of life beneath the sea when low tides reveal sea stars, crabs, sea anemones and other ocean life. The park also includes a large area of coastal scrub and grasslands.

The Santa Cruz Boardwalk's most popular ride, the 1924 Giant Dipper, celebrates its 90th birthday in 2014. The Dipper is still considered one of the world's top roller coasters and has had more than 59 million riders.

Great Things To See And Do

CN Tower: The 553-meter CN Tower was once the tallest freestanding tower in the world (it now comes in second behind the Burj Khalifa in Dubai, which measures 829 meters). Today, elevators bring visitors to the top in less than a minute. Don't miss a trip up to the Sky Pod, which at 446 meters is one of the highest public observation areas in the world.

Toronto Islands: The Toronto Islands provide a great, refreshing escape from downtown with a beautiful view of Lake Ontario on one side and the city skyline on the other. It offers other tourist features such as the Gibraltar Point Lighthouse and Centreville Amusement Park. The Islands can be reached by ferry year-round.

Royal Ontario Museum: The Royal Ontario Museum (ROM) is among the world's leading museums of natural history and world cultures. In combining a universal museum of cultures with that of

natural history, the ROM offers a truly unique experience to audiences from around the world. The ROM was recently renovated by world-renowned architect Daniel Libeskind to become one of the most remarkable buildings in Toronto. The new structure is called "The Crystal" due to its crystal-like formation inspired by the ROM's own gem and mineral collection.

You can travel up the CN Tower for 346 meters in the world's highest glass-floored elevator.

Toronto has 52 outdoor ice skating rinks open between December and March each year.
