## Our teachers and our staff make you speak, laugh and enjoy learning Spanish

They are all native, university graduates and have attended rigorous vocational training. They are **enthusiastic**, possess a natural talent for human relationships and are extremely **sensitive to their students' needs** and expectations. They actively take part in **international house teachers' meetings** and training so as to constantly update their methods and material. Our staff consists of a **multinational team**, with members from Spain and many other parts of the world. They bring diverse cultures and all have a love for travelling.

They always aim to make students feel at home in the school, happy with their housing, and at ease and ready to best enjoy life in Seville.

## Our teaching is active, innovative, and communicative

Classes take place in **small groups** of 6 to 10 students, in order to ensure active participation for all. Communication is the main objective at all stages and students learn exactly what they need at a particular moment. Classes concentrate on all areas of learning; **speaking, reading, writing, listening**. The students develop skills that they can immediately practise inside and outside the classroom. Teaching methods are developed and updated within the framework of International House World Organisation, regarded worldwide for using **the best current language teaching methods**. The International House teaching methods imply a hands-on approach and the learning by doing (Task-based learning). The language together with the grammar and vocabulary are taught in a variety of contexts.

## Join the right level at any time of the year

A total of 8 levels are constantly available in clic ih. Each level responds to the clear definitions established by the European Commission's **European Framework for language learning**, to which clic ih adheres. The levels range from A1 to C2, **Beginners, Elementary, Pre-intermediate, Intermediate, Upper-intermediate, Advanced, Superior and Proficiency**. (See a full description at the end of this brochure.)

## Social and cultural activities; learning and practising Spanish with us, inside and outside the classroom

Learning Spanish also **means taking part in a rich and varied social and cultural programme**, which is aimed at reinforcing the content of the Spanish classes and practising Spanish out of the classroom all day. Our student's social and cultural life is one of the key elements in ensuring the success of the language course. The cultural and leisure programme includes a never-ending list of activities, in school (optional classes of cookery, phonetics, conversation, etc.), **off site** (guided tours, museum visits, excursions, gymkhanas, day trips to beaches, Cordoba and Cadiz, etc.), **cultural events and shows** (theatre, dance, concerts) and **social life** (exchanges with Spanish students, football matches, food tasting in the school, multinational parties in the evenings on our roof terrace).

## Excellent accommodation for all budgets, within walking distance and in the historic city centre

Accommodation is a key element when studying abroad so clic ih attaches a great importance to it and carefully selects and controls all the housing offered to students. All accommodation is within a maximum of 20 minutes walking distance from the school, in the centre of Seville. clic ih provides several options. **Home stay in a Spanish host family** (full or half board, single or double room). **Shared flat with Spaniards** (single or double room, self-catering, sharing all facilities with local adults). **clic ih Residence halls** (single and double beds, with shared or private bathrooms.
